

In regards to the Localism campaign:

Please do not institute anything that would jeopardize our receiving the radio station K-LOVE that is currently broadcast on a FM translator service. My family (including a 3 and 6 yr old) listen only to K-LOVE. It is inspirational, safe for them to hear and a comfort to hear ethical/moral messages compared to other radio stations. Many, many of the members of my church listen to K-LOVE. As a matter of fact, I teach Sunday School and my class has asked that I play K-LOVE during our Sunday morning classes. Please do not take that opportunity away from the children. What we teach them and how we raise them will effect everyone's future! Thank you for considering this request.

Respectfully submitted, Wendy Fical
